BREAKFAST CURE ETHICS

We are committed to healthy planet, healthy people:

Breakfast Cure® uses organic, gluten-free ingredients. Some recipes use butter or ghee as the healthy fat. All the others are vegan.

We are committed to eco packaging:

All our packaging is biodegradable and is made from plant materials. No part of the packaging is plastic.

We are committed to green materials:

Our tasting kits include Eco-spoons and bamboo mini-cups.

Health Benefits of All Congee Variations

Each recipe is formulated for overall balance and every flavor is beneficial for everyone.

Every flavor supports the Spleen and Stomach, benefits and promotes digestion, and soothes and gently cleanses the entire digestive system.

Flavors prescribed by pattern will be more specifically healing. (See Flavors by Pattern)

Each ingredient has benefits far beyond those specifically noted here. For example:

Rice in all its varieties Calms Shen or Heart/Mind, Builds Qi/Energy, Builds Spleen Qi, Boosts Spleen Yang, Benefits the Stomach, Harmonizes the Spleen and Stomach, Soothes Digestion and inflammation, Regulates Fluids, Generates and Nourishes fluids, especially for nursing mothers.

Furthermore, when rice is made into congee by long, slow cooking with lots of water, it is transformed into a meal that supports digestion, hydrates, and soothes the Stomach.

Breakfast Cure is a jumpstart for digestion, a wake up call for metabolism, and the key to easy, relaxing mornings because it cooks while you sleep.

Breakfast Cure is delicious and convenient for lunch and dinner too!

Top Benefits of Congee

Although specific ingredients and medicinals may influence a congee prescription, the the overall benefits of congee include, but are not limited to, the five listed below.

- 1. Boosts metabolism. Increases Spleen and Kidney Yang. Similarly builds Agni in Ayurvedic medicine.*
2. Easy to digest and absorb. Long, slow-cooking makes all the nutrients easy to assimilate so that nutrients are absorbed even by those with poor or compromised digestion or by the ill or women recovering from childbirth.
3. Soothing for sensitive stomachs. Comforting, warm, soft, moist, and soothing are the best combination for upset or sensitive stomachs, and really all stomachs. A big part of digestion is already complete when entering the system giving the stomach and intestines a break.
4. Hydration and Nourishes Yin. A minimum of 5-6 times water is used to make Breakfast Cure. More water is even better. Longer cooking time is not a problem. Based on patient needs, symptoms and preferences, recommend adding 7-10 times the water. More water is recommended for nursing mothers.
5. Gently detoxes your system. Keep your system running smoothly with foods that are full of moisture to ensure that the fiber is soft. Fiber without enough water can be rough and damage the intestinal walls. Without enough water, too much fiber leads to constipation. Congee keeps everything moving through your system with a gentle cleansing action so your elimination stays regular. When nothing is sluggish, digestion and metabolism are optimized.

Easy, Relaxing Start to the Day

Breakfast Cure® makes mealtime easy with organic prepackaged congee that cooks overnight. Wake up to a hot, healthy, homemade breakfast. No planning, shopping, prepping, or cooking.

What will you do with your extra morning time?

One less morning chore calms the Mind, soothes Liver Qi, and therefore eases digestion.

Welcome to the Wisdom of Warm
